

### **Glow-in-the-Dark Technical Information**

- For use on Book Components.
- Applied as a Spot UV with the Sakurai.
- Recommended for use under a gloss lamination.
- Cannot bleed off a page.
- Cannot be used on an area that will be folded, perforated, scored or hole punched.
- Cannot be used on the spine.
- Cannot be used over foil.
- Cannot be used on small type with tight register.
- Only one color option available – green.
- Glow-in-the-Dark Effect will add a light, dayglow green to applied areas.
- Effect does add some thickness to the areas to which it is applied. (Check with your binder.)
- Can be used on all cover stock (10pt, 12pt, Type II, etc.). When used on 100#, coverage amount is limited, check with John Carbone when considering this application. Cannot be used on 80#.
- **Glow-in-the-Dark must be exposed to light before it will show full glow.**

*Contact your Lehigh Phoenix Sales Executive for further details regarding limitations and proper usage.*
