

Spot Glitter Technical Information

- For use on Book Components.
- Applied as a Spot UV with the Sakurai.
- Recommended for use under film lamination.
- Cannot bleed off a page.
- Cannot be used on an area that will be folded, perforated, scored or hole punched.
- Cannot be used on the spine.
- Cannot be used over foil.
- Only one glitter color combination available (density and size of glitter particles cannot be varied).
- Glitter effect shows up brighter when used on darker colors and creates more subtle effects on lighter colors.
- Effect does add some thickness to the areas to which it is applied. (Check with binder).
- Can be used on all cover stock (10pt, 12pt, Type II, etc.). When used on 100#, coverage amount is limited, check with scheduling when considering this application. Cannot be used on 80#.

Contact your Lehigh Phoenix Sales Executive for further details regarding limitations and proper usage.
